THE BALTIMORE
PARLOR HEATERS,
COOKING STOVES,
COOKING RANGES,
HOT-AIR FURNACES, &c.

S. B. SEXTON'S CELEBRATED

PATENT BALTIMORE PARLOR HEATERS AND GAS BURNERS,

for Anthracite or Bituminous coal, have been in successful operation for the last ten years, and have proved to be the best Fire-place Heaters manufactured and put in operation. They are getting to be generally used, often in the place of furnaces, for heating the lower and upper rooms in dwellings and offices. Two or three Stoves heating the largest dwellings, and besides, are quite ORNAMENTAL and ILLUMINATING, having all the beauty and cheerfulness of an open grate fire, but are more ECONOMCAL, CLEANER, and RADIATING A LARGER AMOUNT OF HEAT. We can refer to thousands of families who have them in use.

We manufacture our own COOKING STOVES, and we guarantee them to be equal to any sold for *baking* and *cooking*. We have Stoves to take in *long wood* and with *large ovens*, and are *superior Stoves* for *baking*. We are getting out some new patterns of Cooking Stoves, that will burn *Bituminous coal, hard coal, or wood*. They will have a beautiful finish, and will stand among the No. 1 Cook Stoves. Our Cooking Stoves are Baltimore made, and we guarantee the plates. Our Cooking Ranges are pronounced the best and cheapest in the market—Baking of all kinds can be done in our Ranges as quickly and equally as well as in a Brick oven. We will manufacture S. B. SEXTON'S new patent Hot-Air Furnaces, warranted to burn from 30 to 70 hours without coal.

Thankful to our friends and the public for their past favors, we solicit a continuance of their patronage. S. B. SEXTON & CO.,

EXCELSIOR!—I have recently bought at great cost two of
THE BEST CAMERAS
IN THE WORLD.

The maker of one, J. H. Dalmeyers, of London, received a gold and silver medal at the Paris Exposition. The other is a Perialiactic Solar Camera, made by the celebrated optician, Herman Roetgers, of Germany. The best judges pronounce this the best instrument in the world. With the
BEST INSTRUMENTS,
The best of light and the best materials, I guarantee Pictures to surpass anything in the State, and to
EQUAL ANY IN THE WORLD,
either from old ambrotypes, Daguerreotypes, or from life. I am prepared to make any size picture as good, if not better than the original from fingering size up to full life size.

In making this announcement I would return my grateful thanks for the very liberal patronage bestowed upon me in the past, and pledge my best efforts in producing GOOD PICTURES in the future. The best judges are most pleased, and speak most flatteringly, but the pictures will speak well for themselves. Come all and see.

Those owing me for Pictures will confer a great favor by paying their bills at once, and save annoyance, it not cost.

CHARLOTTE.

Monday, August 9, 1869.

WONDERFUL.—"A Cable from London to Quebec" says the New York *Express*, is an item by the Atlantic telegraph, and the fact recalls the great work of two or three years. Only three years ago, July 27, 1866, the cable was landed at Heart's Content, and a real heart's content it was to thousands interested in the grand result. July 27th, 1869, the cable from Brest was landed at Duxbury, Mass The original cable tolls were £20 for ten words, with a limited number of letters to the word, and now the price is reduced to £2, or one tenth, and more money received at the latter rate than at the former. The next move will be a telegraph from the far American West to the far off East Indies. The girdle will surround the earth in far less time than ever the fancy of Shakspeare painted.

The East India Telegraph Company propose to connect China, when China consents, with the British territories in India, *via* Burmah. The Russian wires now extend to the Siberian frontier, and continents and peoples are everywhere bound together by the electric cord.

This is indeed the age of scientific progress. The waters of the Mediterranean will flow into the Red Sea—the Pacific is bound in iron bands to the Atlantic, and Europe under the Atlantic again by cable to the coast of the United States, and all between May and November. It is something to live in the year of our Lord, 1869.

The New York *World*, in commenting on the sudden popularity of enfranchisement of the "white folk" of the South, expresses the following very decided opinion: "The anomaly of keeping down the superior race is a failure, after five years of Congress to the rescue to bolster it up. This its key-stone was white disfranchisement. That pulled out, the whole arch falls. It has fallen, and will soon be buried out of sight."

A NEGRO IN THE SAVANNAH POST-OFFICE.—The *Republican*, of Tuesday, announces that for the first time in the history of Savannah a negro was on Monday inaugurated in one of the most respectable positions of the Post-office. L. B. Toomer has been assigned to the General Delivery, the department in which he will be most thrown in contact with our citizens. We know nothing of his qualifications, but it is a rare thing for educated white men to possess that aptness for deciphering chirography necessary for the correct distribution and delivery of letters, and it is hardly to be expected in an imperfectly educated negro.

THE RING OF TRUE METAL.—The Marion *Cresent* says: "Our old friend Hon. W. B. ROWELL, of this district has this year cultivated fifteen acres of corn and cotton with his own hands, doing the hoeing as well as the ploughing himself. The Major is now in his 70th year, and withal, in delicate health. A people of that pluck will rise."

ROMANCE OF CONVENT LIFE.—It tends very materially to disabuse the the mind of all notions about the peace and serenity of convent life to read a paragraph like the following, which the *Presbyterian* takes from the statement of an ex-Capuchin:

"Perhaps the most cruel chastisement of all in ordinary use is that of describing a cross upon the floor with the tongue. I have seen this penance performed through the length and breadth of the refectory, a large hall capable of seating two hundred people at tables placed in single rows by the sides of the walls. The tongue must leave a trace along the entire surface, so that the cross is clearly visible. The natural moisture of the tongue being exhausted, it is at last lacerated and made one mass of sores. The track begins to be red with blood; but the cross must be completed. The blood flows copiously; but there is no pity, no respite; and long before the task is completed, the miserable sufferer presents an appearance calculated to rouse the indignation of every spectator not altogether brutalized by fanaticism."

A colored woman in Kentucky has given birth to five children in one day.

STATE NEWS.

ACCIDENTS TO BUILDERS.—Wednesday a staging gave way on Upchurch & Dodd's new building, and precipitated four men to the ground, hurting one of them slightly. The lintel to one of the doors, which the men were putting in place, also fell and broke the door-sill.

Yesterday a more serious accident occurred at the New Market House building. A portion of the staging fell, and the colored workmen upon it went with it to the ground. Wm. Brown and Jacob Hill were seriously bruised; and Benjamin Manly, Peter Smith, and Frederick Lane slightly injured. Wm. Brown's injuries were the most serious; but it is thought it will be fatal to none of them. *Standard.*

Monday night last, a fire in Fayetteville destroyed the store and contents owned by W. G Mathews; the Clarendon Bank building, and two small wooden buildings on the opposite side of the street. Loss on Mr. Mathews store and contents, $10,000, insured for $3,000. Loss on bank building, $5,000 or $6,000. No insurance. Henry Marsh, a fireman, was severely wounded in the foot.—*Ib.*

MORE STEALING.—One or two gentlemen were seen running down the street, in a most unexpected manner, a day or two ago, and upon enquiry it was found, that they were in pursuit of a person who had been stealing pistols and razors. That man evidently intended to keep his face clean, and to defend himself against his enemies. Nevertheless, he was captured, his spoils taken away, and himself, by way of a compromise, compelled to leave town. *Eastern Intelligencer.*

The crops in Person county have been very much damaged. More so than they have been here. The corn is small, and the tobacco is said to be "buttoning."

An old white lady in this county tells us she has been cutting a tooth every twelve months for the last 21 years. She calls them "sprouts." Says her gums swell and turn red, and then burns an old shoe sole and makes a plaster out of hickory bark and the "sprout" bit drops out and that's the last of it.—*Hillsboro' Recorder.*

DROWNED.—A little negro boy was drowned yesterday, by falling through one of the holes of the bridge crossing Trent river. Up to last night his body had not been recovered.

the Bobby's death can be charged to whose attention as Commissioners, the dangerous condition of the brig again and again.—*Newbern Journal.*

Rev. Dr. Doub, one of the oldest and most eminent ministers in the N. C. Methodist Conference, who has been quite ill at this place for some time, we are glad to learn is improving.—*Greensboro' Patriot.*

MORE ABOUT THE BOSTON MURDER. Last night Major Thomas L. White, a young man about thirty years of age, who hails from Mississippi, and has been stopping at the house of Dr. Hobbs, fired a pistol, while coming down stairs, at Mrs. Hobbs, who had just shut the parlor door. Mrs. Hobbs, on closing the door, said to her husband, "Pa, he's got a pistol." The Doctor jumped up when the pistol was fired, the ball from which passed the door without hitting any one. Immediately afterwards another shot was fired, when Mrs. Hobbs was braced against the door, and she fell, crying "Doctor," I'm shot!" The ball entered below the left breast and passed out on the right side, probably passing through the lungs, if not touching the heart, and caused instant death. Dr. Hobbs, nearly wild with excitement, instantly left the house for a policeman, and Sergeant Hartshorn proceeded from the Fifth Station, which is in the immediate vicinity, and took the murderer into custody. He had made no attempt at escape, and when the officer appeared, exclaimed "I am the man!" I did it, and this is what I did it with!" showing his pistol.

Major White is said to be a lawyer, or studying law, and one report is that he was stopping at Dr. Hobbs's for medical advice. Mrs. Hobbs is said to be about thirty five or forty years of age.—*Boston Advertiser, 4th.*

SOUTHERN EMMIGRATION.—Intelligence upon which the Washington *Chronicle* places implicit reliance, justifies the remark that there is more interest manifested in Germany, Sweden and Norway in American Southern immigration, than at any former period. The *Chronicle* adds:

"The great European emigration houses, with their hundreds of agents are carefully gathering information and industriously circulating it. The States to which they are now turning their attention, are Virginia, Tennessee, Alabama, and North and South Carolina. The Winter is the season for canvassing for emigrants, and the statistics should be sent forward during the Summer.

A white man, named William Pierce, has been swindling the negroes of Richmond by pretending to initiate them into the secrets of Masonry, at $12 a head. He has been arrested.

Worlds on Fire.

On the 12th of May, 1866, a great conflagration, infinitely larger than that of London or Moscow, was announced. To use the expression of a distinguished astronomer, a world was found to be on fire. A star, which till then had shone meekly and unobtrusively in the Corona Borealis, suddenly blazed up into a luminary of the second magnitude. In the course of three days from its discovery in this new character by Mr. Birmingham, at Tuam, it had declined to the third or even fourth order of brilliancy. In twelve days, dating from its first apparition in the Irish heavens, it had sunk to the eighth rank, and it went on waning until the 26th of June, when it ceased to be discernible except through the medium of the telescope. This was a remarkable, though certainly not an unprecedented proceeding on the part of a star; but one singular circumstance in its behavior was that, after the lapse of nearly two months, it began to blaze up again, though not with equal ardor, and, after maintaining its glow for a few weeks and passing through sundry phases of color, it gradually paled its fires and returned to its former insignificance.

How many years had elapsed since this awful conflagration actually took place it would be presumptuous to guess; but it must be remembered that news from the heavens, though carried by the fleetest of messengers, light, reach us long after the event has transpired, and that the same celestial courier is still dropping the tidings at each station it reaches in space, until it sinks exhausted by the length of its flight. Now when this object was examined, as it was promptly and eagerly by Prof. Miller and Mr. Huggins, they found to their great wonder that it yielded two spectra—the one imposed upon the other, though obviously independent. There was the prismatic ribbon crossed by dark lines, which belongs to the sun and stars generally, but there was another in which four bright lines figured; and these, according to the canons of interpretation previously mentioned, indicated that some luminous gas (or gasses) was also pouring out its light from the surface of the orb.

Two of the lines spelled out hydrogen in the spectral language. What the other two signified did not then appear; but, inasmuch as those four streaks were brighter than the rest of the spectrum, the source from which they came must obviously have been more intensely heated than the underlying parts, or photosphere, from which the normal stellar light proceeded. And as the star had evidently [illegible] position that it had become enwrapped in burning hydrogen, which in consequence of some great convulsion had been liberated in prodigious quantities, and then, combining with other elements, had set this hapless world on fire? In such a fierce conflagration the combustible gas would soon be consumed, and the glow would, therefore, begin to decline, subject, as in this case, to a second eruption, which occasioned the renewed outburst of light on the 20th of August.

By such a catastrophe it is not wholly impossible that our own globe may some time be ravaged, for if a word from the Almighty were to unloose for a few moments the bonds of affinity which unite the elements of water—of the ocean on the land and the moisture in the air—a single spark would bring them together with a fury which would kindle the funeral pyre of the human race, and be fatal to the planet and all the works that are therein. It cannot but be a startling fact for us that in yonder doomed and distant world we have, probably, seen in our own day a realization of the fearful picture sketched by Peter, "when the heavens (or atmosphere) being on fire shall be dissolved, and the elements shall melt with fervent heat." And if we regard it as the centre of a system it is impossible to think without horror of the fate of the numerous globes around it when overwhelmed by this sudden deluge of light and caloric.

GOOD ADVICE.—At a recent marriage of a daughter of Joseph Joslins Esq., of Poultney, Vt, the following advice was handed to the bride by her father, accompanied by many greenbacks. We recommend its prayerful perusal and remembrance by newly married couples. They are truly "words of wisdom," and deserving to be framed in every household in the land.

1. Never talk *at* but *to* each other.
2. Never both maintain anger at the same time.
3. Never speak loud or boisterously to each other.
4. Never reproach each other in presence of others.
5. Never find fault or fret about what cannot be helped.
6. Never repeat an order or request when understood.
7. Never make a remark at other's expense.
8. Neglect everybody rather than each other.
9. Love the Lord and serve Him faithfully all the days of thy life.

SPECIAL NOTICES.

The Conditions of Health.

It is idle to expect health if the precautions necesary to secure it are neglected. The human organization is a delicate piece of mechanism, and requires as much intelligent care and watchfulness to keep it in order, as are requisite in the management of the most complicated combination of levers, wheels, pinions.

At this season of the year the body is peculiarly sensitive, because it is greatly weakened and relaxed by the continuous heat. The skin, in summer, with two millions of pores wide open, is a very different sort of tegument from the compact fibrous covering which it becomes under the action of the winter's cold. The muscles, too, are comparatively flaccid, the nerves tremulous, the blood poor, and the whole frame less capable of enduring fatigue and resisting disease, than in cool weather. These indications of a depressed condition of the vital forces are so many unmistakable hints that nature needs reinforcing.

Ordinary stimulants will not effect this object. They inflame and excite, but do not strengthen. The only preparation which can be depended upon to impart staminal vigor to the system, and enable it to endure the heated term without giving way under the pressure, is HOSTETTER'S STOMACH BITTERS, a tonic and corrective so pure, so harmless, so utterly free from the drawbacks which render many of the powerful astringents employed in medical practice more dangerous than the ailments they are employed to cure, that it may be administered without fear to the feeblest female invalid, or the most delicate child. The cathartic and alterative vegetable ingredients, which are combined with those of a tonic nature in its composition, keep the bowels moderately free and perfectly regular, while the work of invigoration is going on. The finest blood depurents which the herbal kingdom affords are also among its components, so that it purifies and regulates the system simultaneously.

ASIATIC CHOLERA IN CHINA

TUNGCHOW, China, Aug. 23, 1866.

Messrs. PERRY DAVIS & SONS,

[illegible] China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed, using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese came to us in great numbers for medicine and advice—Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even in their physicians, that we have almost daily applications. We allow them to come, because it brings us in contact with them, and opens a door to usefulness. In diarrhœa, colic vomiting, cholera, coughs, &c; your Pain Killer has been my chief medicine.

Yours very truly,
T. P. CRAWFORD.

LATEST NEWS.

Washington.

WASHINGTON, Aug. 6.—The President says, where offices have been held for eight years the incumbents however competent must give place to persons equally capable, who suffered from the war. This ruling applies to Kentucky and its operations is illustrated in the case of E. A. Needham, Assessor at Louisville. The President directed suspension of Needham and commission to be make out for Horace M. Bulkley. Boutwell insisted that Needham having been a faithful officer should be allowed to resign. This policy having been adopted, Needham telegraphs him, today asking if there were any charges against him, and received an answer that there were none whatever.

It is generally conceded that Tennessee has gone for Senter overwhelmingly. No county, as far as heard from gives Stokes a majority.

The New York *Tribune* says for a long time the result of the Tennessee election has been conceded on all sides. The fight made by Mr. Stokes has been the hardest kind of up hill work, and his chances have diminished more and more as the time for voting drew near. The few returns at hand, as we write, indicate the majority for Senter, as even a larger figure than claimed by his partisans.

The *Herald* says: "The most gratifying part of the news is that the contest passed off quietly and that all refreshment saloons were closed during the day."

The *World* says: "It is very gratifying in view of the efforts made by a portion of Grant's Cabinet to secure the election of that bold Radical Stokes. More important than this is the probability indicated by the returns that the majority of the members of the Legislature just elected are Conservatives, thus sparing the nation the disgrace of the addition to the United States Senate of another Radical. Whether the Senator "to be" will be Andrew Johnson, or Bailie Peyton, or Emerson Etheridge, or some person whose name has not yet transpired, remains to be seen. It is enough if the Radicals have been beaten in a State, which they have held by the throat for years through a system of disfranchisement as sweeping as it was outrageous. Thus, one by one, the States that voted for Grant and Colfax are repenting their folly, and are courageously ranging themselves under the banner of the Democratic Party."

Tennessee.

NASHVILLE, AUG. 6, M.—Returns show that Senter has carried Middle and Western Tennessee by sweeping majorities, making allowances for Stokes' probable majority in East Tennessee, the State has gone for Senter by twenty-five or thirty thousand majority.

The Conservative ticket for the Legislature are elected in all the districts carried by Senter. It is probable that the Conservatives will have a majority in both branches of the Legislature.

MONEY

is an article despised by none, and we are now prepared to show how all may possess it in abundance, by following a few simple instructions, which will be given

FREE

of charge, except the trifling sum of 25 cents, as a guarantee of good faith.

The business is lucrative, safe, and thousands are now engaged in it; while to their most intimate friends the cause of their great success and prosperity remains a mystery. Any party engaging will frequently receive sealed packages by express or mail, and further than this the business is all to yourself.

AS

the article can be carried in the vest pocket, ready when wanted for use. It needs your attention but one or two days in the week, or a couple of hours daily, which can be after other business is over. No additional rent, taxes, or help of any kind; all engageing with us must be of first

WATER.

NO OLD MAIDS NOR MINISTERS WANTED, but one good, smart man in every town who can keep his business to himself, act confidently with us, and make from $5 to $10 for every hour's service. Act promptly, strike while you have the opportunity, and a FORTUNE is yours. Inclose, with your address, one prepaid directed envelope and 25 cents, and you will receive full particulars by return mail. Address, NOYES & CO., 58 Wall street, N. Y.

SPARKLING

CATAWBA SPRINGS.

CATAWBA COUNTY, N. C.

THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.

BEING SITUATED in the Northwestern part of the State, in a country remarkable for its beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.

THE MINERAL WATERS OF THESE SPRINGS

Are the White and Blue Sulphur and Chalybeate Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility, dyspepsia, rheumatism, &c., &c.

THE PROPRIETOR having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.

GOOD TEN PIN ALLEYS, BILLIARD TABLES

And other Amusements

FINE BATH HOUSES,

For Pool, Plunge or Shower Bath, Sulphur Bath Hot or Cold.

A GOOD BAND OF MUSIC

Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.

Having secured the services of Mr. J. N. Carter, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.

The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Spring's depot, every morning (Sundays excepted) in connection with the North Carolina Rail Road, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well shaded road to the Springs—a distance of six miles.

As an inducement for families and parties to spend two months or more, I have concluded to put board down at the following low rates:

BOARD

For one single month,	$50.00
For two or more months, per month, or at that rate,	$40.00
Per week,	16.00
Per day,	2.50

Children under ten years of age and colored servants, half price. No charge for infants or children under two years of age.

NOTICE.—We hereby notify the public that, from and after this date, we employ no agents for the sale of

Gregory's Dyspeptic Mixture,

Neither are there any interested parties with us. We are the inventors, sole proprietors, and only manufacturers of the GENUINE ARTICLE, and our individual signatures accompany each bottle—and all orders and remittances must be made to Drs. W. W. & R. K. GREGORY, at Charlotte, N. C.

In assuming the entire charge of this invaluable remedy, we present it to you in a new dress, and have reduced the price to $1 50 per bottle, to bring it within the reach of all. In the pamphlet which accompanies each bottle will be seen the certificates of the most distinguished physicians, judges and divines in the State, and we only ask for it a trial, that dyspeptics may be convinced of its curative virtues.

A liberal discount to the trade.

LARGE DIVIDEND OF INSURANCE.

The Piedmont Life Insurance Company, of Virginia, has

DECLARED A DIVIDEND OF

FORTY PER CENT.

on its Life Policies, which have paid two annual premiums, and the same is available on such policies at next renewal to absorb loans, or reduce cash payments.

The dividend could have safely been larger, but with the

The company is now only in the *eighteenth* month of its active operation—yet

HAS ISSUED 3,000 POLICIES

KOSKOO!

THE GREAT REPUTATION

Which Koskoo has attained in all parts of the country as

A GREAT AND GOOD MEDICINE

has induced Dr. Lawrence to *enlarge his Laboratory and facilities for manufacturing*, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS

which are constantly being received from Physicians and persons *who have* BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

AS A BLOOD PURIFIER IT HAS NO EQUALS

BEING POSITIVELY THE

MOST POWERFUL VEGETABLE ALTERATIVE

YET DISCOVERED

DISEASES OF THE BLOOD.

"The Life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true—The people talk of bad blood, as the cause of many diseases, and like many popular opinions this of bad blood is founded in truth. To say nothing of those humours that are hereditary, we can easily see how the blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and—ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human families are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO! KOSKOO!

AS A

LIVER INVIGORATOR,

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE

that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, WITHOUT DEBILITATING the system. While it acts *freely* upon the Liver *instead of copious purging*, it *gradually changes* the discharges to a *perfectly natural state.*

SYMPTOMS OF LIVER COMPLAINT, AND OF SOME OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish brown spots on the face and other parts of the body, dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, tearing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the CURE of diseases of the KIDNEYS and BLADDER. IN THESE AFFECTIONS IT IS AS NEAR A SPECIFIC *as any remedy can be.* It does its work *kindly, silently, and* SURELY. The RELIEF which it affords is both *certain* and *perceptible.*

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the *importance* of their *healthy action.*

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the blood those effete matters, which if permitted to remain would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the fountain of Life Pure.

KOSKOO! KOSKOO!

Meets with GREAT SUCCESS (as hundreds of certificates will show), in the CURE of

DISEASES OF THE NERVOUS SYSTEM.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical), are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows: A dull heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Noises or Ringing in the head; Confusion of Ideas; Temporary loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured—but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
